VISTA VAULT

In-house Magazine of
Vista Engineering Pvt. Ltd.

MD Message

Dear Colleagues,

There is a saying that goes, "Even a flutter of a butterfly in one corner of the globe sends an impact to the other corner". Yes, we are all dependent on each other, be it profession or personal. As a company VISTA is part of the larger society and has duty to be prudent, forthright and progressive!

Coming back to VEPL, I am happy that the journey of VISTA VAULT has already begun; with this being the second consequent issue. I knew that as an upcoming Company, VEPL is taking measured steps and making conscious efforts in all its endeavour. It is therefore possible that its editor finds it difficult to determine its content and context. Good luck to her!

This quarter the company has acquired and tapped some of the potential orders from reputed organizations including M/S **Essar Power Gujarat Limited** for AMC of their 2X600 MW plant, Jam Nagar for BTG, BOP, AHP and CHP for two years. I am particularly happy that VEPL is able to gain the trust of individuals and clients as well within a short duration from its inception. It only proclaim the consistent deliveries all along my career, both personal and professional alike! Our team is tirelessly working on getting new orders to increase the order book value of the company and my appreciation goes to every individual involved in the process. As many are aware, we are strengthening the team with new and competitive members from reputed organizations, both for growth and expansion!

We are turning a new leaf in creating a separate division for chemical supply and services. I am foreseeing great opportunity in this forum especially targeting power plants where many chemical dosing are part of the system and operations. I extend my best wishes and luck for good take-off and growth!

The turnover of VEPL for the year 2025-26 may touch **Rs 61.00 Crores** which is remarkable in any standard for a nascent company, a leap from Rs.17.00 Cr for the year 2024-25. While we may be happy at being with good top wind achievement we need to get the bottom line intact, with good margin and growth. While the robust order book is one of the most essential portion of fiscals, equally important is the realization of revenues from customers and tight hold on expenditures. I am confident that our entire team consisting of engineers, administrators and finance people would coherently work and achieve the desired deliveries.

We are inching forward!

With confidence and regards,

Ajay Kumar Kantheti

MANAGING DIRECTOR

Birthday celebration of CMD

The birthday of our CMD Mr. Ajay Kumar fell on 05-03-2026 when the entire troupe of employees joined and celebrated with joy and fanfare. Some of images are captured certain moments here to give a glimpse!

Birthday celebration of Sterbin

CSR Activities

Vista Aid Foundation started on CMD's Birthday. On the special occasion of our Managing Director's birthday, celebrated on March 5th, 2026, we proudly carried out a series of Corporate Social Responsibility (CSR) initiatives across locations near all our existing project sites.

This meaningful initiative reflects our commitment to giving back to the community and making a positive impact on society.

As part of the celebrations, the following activities were undertaken:

- Distribution of books and stationery to students in government schools, supporting their educational needs and encouraging learning.
- Social service activities at government hospitals, extending support and care to patients and healthcare staff.
- Distribution of essential appliances to government schools to help improve their infrastructure and learning environment.

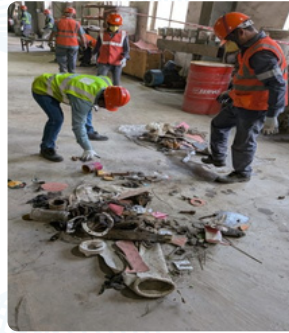

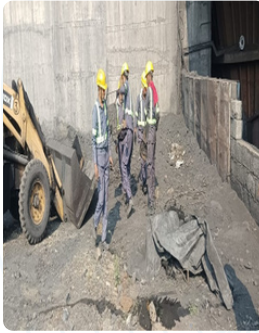

Safety week

VEPL is serious about safety and its implementation. As part of the statutory program many sites observed safety week at sites with spirit and interest. The clients were invited to the celebrations and workers were enthusiastic about the whole nature of celebration. We have captured some for recollection!

House keeping implementation

New Project

Client: Essar Power Gujarat Limited

Capacity: 2x600 MW

Location: Salaya, Jamnagar

Job Description: Annual Maintenance Contract for BTG, BOP, AHP & CHP.

Contract Period: 01.04.2026 - 31.03.2028

We are pleased to announce that VISTA has secured a new order from Essar Power Gujarat Limited (EPGL), marking our first association with the organization. We are especially delighted that this project represents our highest plant capacity order to date, with a capacity of 600 MW with 2 Units.

Turn Over:

We are proud to share a remarkable milestone in our journey of growth and excellence. In the financial year 2025–26, we achieved an annual turnover of ₹61 crore , a significant leap from our previous turnover of ₹17 crore. in FY 2024-2025.

New joinees

Pradeep Kumar
VICE PRESIDENT-O&M

Mr. Pradeep kumar, joining VEPL as Vice-President (O&M) is a graduate in mechanical engineering and brings with him rich experience of over two decades in operation and maintenance of power plants. He was previously serving with reputed organizations where he had exposure to O&M of units of capacity 800 MW, including breakdown, preventive and overhauling. He is designated to take overall charge of sites and lead!

Employee Awards

This quarter, several of our dedicated team members have been recognized for their outstanding contributions across project execution, safety compliance, and operational excellence. Their commitment, problem-solving attitude, and alignment with VISTA's core values have set inspiring benchmarks for all.

SBU-II (CHEMICALS):

Vista Engineering Private Limited (VEPL) is poised to launch a dedicated Industrial Chemicals Division, focusing primarily on supporting power plant operations. We are happy inducting in **Mr. Shaik Subhani** as General Manager, a graduate in M.sc chemistry and an expert in chemical treatment and solution and having an extensive experience of over 18 years in this field. He will make strategic moves in supply and services of chemical targeting power plants.

VISION:

To occupy a prime place in chemical supply chain and effectively deliver customized and formulated chemicals to the clients with mindful for clean environment to the next gen.

MISSION:

Implementing continuous improvement in quality, delivery schedule and environmental issues as a standalone player in chemical supply chain.

Identifying new and improved products to boost the efficiency of the clientele in the field of operation and make them remain competitive.

Taking the company to high level marketing with annual turnover of **Rs 300 Cr** in the next three years by sheer hard work and dedication.

Director's Message

Friends and colleagues,

This quarter covered by the issue 02 has witnessed many interesting activities including celebration of the birthday of our CMD Mr. Ajay Kumar and also site activities like **safety week and CSR activities** through Vista Aid Foundation. Apart from professional activities that are part of everyday design of the company, these peripheral activities are giving colour, joy and satisfaction to all.

I extend my heart full thanks to all those who mattered in conducting the birthday celebration in honour of CMD and observing safety week in true spirit and also implementing CSR activities across the sites with dedication. These events are captured in this issue through its pages.

New stalwarts are joining our company and I am happy welcoming them all. I am confident that they will add values and raise the professional strength of VEPL to a great extent. The year 2026 is earmarked for vertical and horizontal growth of the company and let us all join together with our CMD in his endeavour!

Regards,

Sadvika Kantheti

From securing order yet with **Essar Power Gujarat Limited** (2x600 MW, Salaya) to crossing a milestone turnover of **₹61 Crore** (up from ₹17 Crore last fiscal), this quarter has been one of momentum and meaning.
