VISTA

VAULT

In-house Magazine of
Vista Engineering Pvt. Ltd.

MD MESSAGE

My dear colleagues,

I am extremely happy that our Company is bringing out an internal magazine, VISTA VAULT to put all relevant events and messages on record. It will pave way for people concerned are kept well informed. It also provide me a platform to express my views and feelings through this column which is likely to find a place! I am delighted to note that Sadvika shall be holding the flag as the Editor of the magazine.

I congratulate her for taking this new responsibility and extend my best wishes for a superb future and career ahead! My only ambition is that the magazine should have an uninterrupted release of issues every quarter.

As you all know that Vista Engineering Services (VES) was officially initiated and registered on an auspicious day 21-11-2023 in Hyderabad. It is incorporated with a vision of reaching one of the top slots in the industry and with a mission to achieve the same with zeal and focus, keeping quality all the time.

As I always used to say, "The best advertisement for a Company is word of mouth" and that can be achieved only by quality and integrity. I have developed a strong belief in my statement! Therefore I invite all my employees to dedicate themselves that they are always quality conscious and performance conscious.

We have already stepped into the business with some of the significant orders from M/S Adani for their 2X300 MW Butibori plant, from M/S Rattinindia for their 5X270 MW Amravati plant, from M/S GMR for their 2X300 MW Warora plant and other few orders for overhauling and maintenance which will be featured in coming pages.

I am foreseeing a grand future for VISTA with all your cooperation and wholehearted support from the clients! The journey has begun and let us march together and farther!

I extend you all my best wishes.

With warm regards

Ajay Kumar Kantheti

FESTIVE JOY & BIRTHDAY MOMENTS @ VISTA

A graduate in Electrical engineering from the prestigious Institute of Engineers, Kolkata and having an extraordinary experience for about four decades from reputed organizations in power sector. He has an illustrious association with major power utilities like AES India Ltd, Athena Chhattisgarh Ltd, Irrigation and power department, Govt. of Odisha, Power Mech Projects Limited etc. before joining VES.

He has handled and completed various thermal projects independently and also has huge experience in O&M of power plants with capacity up to 800 MW having in-depth knowledge over all segments and equipment. He had underwent major training programs from reputed industrial houses during his tenure of service and keep updating himself for latest developments in the industry. He is a major source of moral and professional support and brings with him an assertive experience to VES

E. D. Rajan

TECHNICAL ADVISOR

EDITOR'S DESK

Dear colleagues,

It gives me immense pleasure to take the role of Editor, Vista Vault, the internal magazine for our Company **Vista Engineering Private Limited (VEPL)**. I knew it is a huge responsibility but with your support and blessings from MD and other senior people of the organization, I am confident of getting through!

The idea of starting a magazine for our Company is get all relevant events, achievements, goals, performance or even slips recorded so that the future is assured of a good source for information over the organization.

I assure that I will not be boring through these columns, touching upon pure business but rather I will tend to capture more of today's interesting topics and events. Just away from business!

My best wishes and regards,

Sadvika Kantheti

We are pleased to announce that our company has acquired a new Head Office in the Financial District, Hyderabad. We will be shifting to the new premises in June.

New Office Address:

EON IT Park, 5th Floor, Financial District, Nanakramguda, Telangana 500032

This move marks an important step in our growth journey. In addition, we are proud to share a major company milestone — the organization has recently been converted into a Private Limited entity. This transformation represents a significant advancement in our corporate structure and governance framework, positioning us for future expansion and success.

We look forward to beginning this exciting new chapter together.
