VISTA and Adani - Vista Power Pvt Ltd

We are extremely happy to announce that a new JV has since been established between Adani Infrastructure Management Services Limited and Vista Power Private Limited for the exclusive purpose of undertaking O&M assignments in all the power establishments of Adani group. It is a major breakthrough moment for VISTA as the association with Adani group by itself is a significant achievement which would eventually escalate the JV into a primary platform for growth and prosperity. We envisage a greater role for this JV in the coming years to be recognized as one of the fulcrum of power utilities!

Signing Joint Venture With Adani

First Project:

Mahan

Capacity: 2X600 MW

Location: Mahan, Madhya Pradesh

Scope of Work: Operation & Maintenance of Mahan Thermal Power Plant

New Projects secured; Bara & Mundra

VEPL has secured two new projects to its portfolio one at Bara and another at Mundra. These projects mark an important element for VEPL's expansion program and has good potential in strengthening the company's presence in the O&M segment of power industry. We commend the team who successfully worked for making them possible!

PPGCL

Capacity: 3x660 MW

Location: Bara, Prayagraj

Scope of Work: Annual Maintenance Contract of Electrical Systems for BTG & BOP.

TATA MUNDRA

Capacity: 5x800 MW

Location: MTPS, Mundra

Scope of Work: Operation & Maintenance of Ash Handling Plant.

Managing Director's Visit – Adani Annual Conference

Our Managing Director **Mr. K. Ajay Kumar** participated in the Adani Annual Conference held in London and Abu Dhabi on September 7 and 9, 2026, respectively at their invitation. The invite and opportunity to participate the conference is a direct recognition for VEPL as an entity and a trusted associate of Adani. The MD was one of the panellists, participated in the joint discussions and which gave an opportunity to share and exchange mutual and broader thinking and ideas.

The visit provided an opportunity to participate in key discussions, exchange perspectives, and engage with the broader Adani Group leadership and stakeholders.

PANEL I PARTNER | ADANI EXTENDED ENVIRONMENT

This panel will bring together Adani's construction partners who form a critical part of the extended enterprise ecosystem and help deliver infrastructure projects from the ground up. Represented by leading construction companies, the discussion will focus on the physical construction engine behind large-scale infrastructure and collaboration models that enable complex assets to be built at speed and scale.

Ganesh Chaturthi Festival at VEPL

There was gala celebration and festivities in view of **Ganesh Chaturthi** as the members of our team conducted the event with enthusiasm and sense of togetherness. Employees came together to make the occasion meaningful, colourful and joyful and share the festive spirit between them.

Employees Birthdays

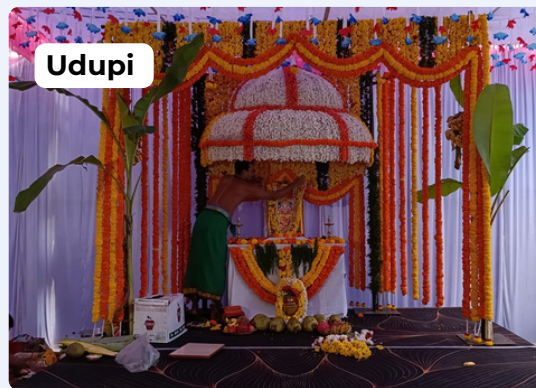

A set of our employees celebrated their birthdays as a family. The events represent the spirit of togetherness among the employees and brings sense of joy, personal touch and love! We wish all the employees who celebrated their birthdays during this period a long and celebrated life ahead!

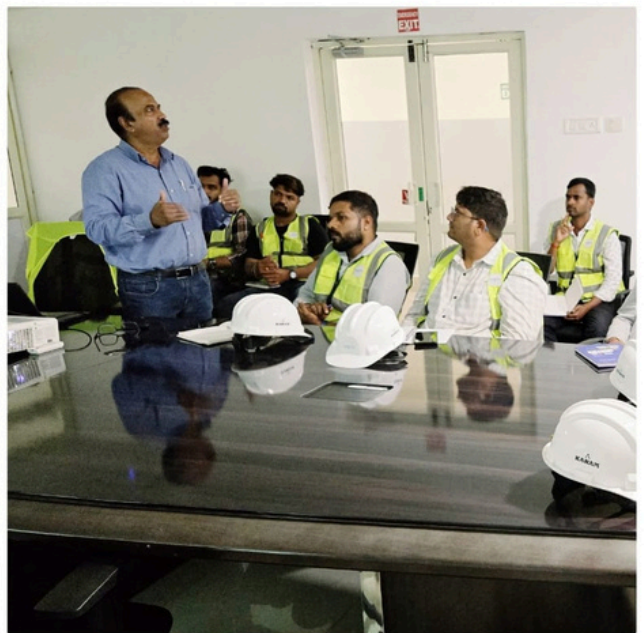

Vishwakarma Pooja

The true meaning of celebrating the Vishwakarma Pooja is to recognize the majesty of labour and creativity. It is also the engineer's day coinciding with the birthday of the famous engineer Sir Visvesvarayya. We celebrated the day with fanfare and puja for the welfare of the employees and their families.

APL Udupi – Safety Awareness & Welcome kits

Safety continues to remain a key focus at APL Udupi and in line with the spirit Various safety initiatives and activities were carried out to reinforce safe working practices and strengthen safety awareness among employees and Welcome kits were given.

Udupi Inauguration

A significant step forward in strengthening our presence. The inauguration at Udupi Thermal Power Plant marks a significant milestone for Vista Engineering Private Limited, showcasing our commitment to excellence and strong partnerships in the power sector. This event reflects our team's dedication and the confidence placed in us to deliver consistently and responsibly, further strengthening our presence in the industry.

MD's Message

Dear colleagues and friends,

I extend my good wishes and luck to all my employees and colleagues on the occasion of the first festival of the year, Ganesh Chaturthi and I pray for your good health and prosperity! We have settled in the new premises and getting used to it. Now we may feel the travelling distance is not that far and the time taken is not that long.

During this quarter I had the opportunity of attending some important conferences and panel discussions, including the Annual Conference by Adani in London. The venue opened to me in meeting some important personalities and hold useful and interesting discussions over tea and table. I returned with grateful heart for the top management of Adani group in identifying me for the event.

The association with Adani group through the JV is a milestone moment for me and to VEPL. It is my desire and expectation that this JV will establish itself as a radiant force in O&M business. I am confident that more and more assignments are added to the order book from Adani and make the JV explicitly self-sufficient.

I am happy to note that we have completed the mobilization activities for Udupi TPP and congratulate the entire team for their dedicated efforts. It is a new opportunity and we remain to prove ourselves with our deliveries, quality of services and optimizing our resources. It is to be followed by Mahan and other assignments with pace and fulfillment.

As you all knew I am running from one corner to the other, leaving most of the follow-up works to my team which they are pursuing with vigor and valor.

Once again I extend my good wishes to all!

Regards,
K. Ajay Kumar

Editors' Desk

Dear colleagues and friends,

I am happy noticing the steady growth of VEPL both in volume and manpower strength. As the new projects are being added to our kitty more and more new talents and manpower are also being recruited to strengthen the team. Together with the manpower growth, the responsibility also is increasing to the core team. I am confident that the team will raise to the occasion to deliver perfectly!

The monsoon season is about to begin and we may expect more shutdown jobs in the future. Our entire team will be more occupied and get busy with. We are assured of the best support to all the site staff from top management, especially from CMD. His guidance shall take the company to new height and platform.

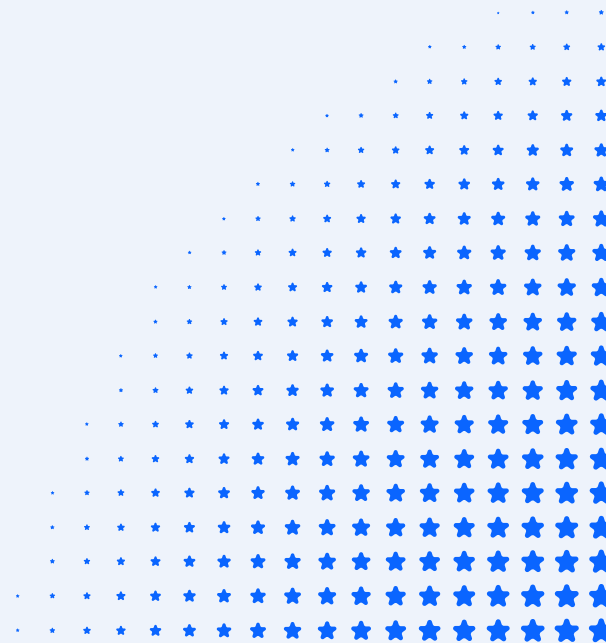

This quarter too, we had good number of events, celebrated with fun and fare and some of which are captured in this issue. We are one family and that togetherness is exhibited through all these celebrations. Good luck to all!

Regards,

Sadvika Kantheti
